What: Peruvian Connection Tencap League is Kansas City's Interclub League

The Peruvian Connection Tencap League was founded in 1983 to provide well-organized INTERCLUB play for club members. The League offers a team format; a social opportunity for friends to come together and enjoy the fun of competing together for their club. Refreshments and socializing are important 'after the match' activities. Originally a Summer League, there is now year-round play, which supports club staffs' and Tencap League players' desire for interclub play throughout the year.

The Peruvian Connection Tencap League has a website— <https://peruvianconnectiontencapleague.tencap.co.uk> communications in one interactive management system. The website also features a tennis rating system, Tencap, that means your interclub matches are compatible...you play with and against players with abilities similar to yours.

Where: Play is at 18-22 clubs in the greater metropolitan area. Half of the matches are played at a team's home club and the rest of the matches at the club of the team's opponents.
